### **Sphurti Webapp - Data Analysis**

Jul 2021 - Dec 2021

- Data Analytics Sphurti WebApp Ltd. Worked as part of a third-party data analysis team providing support to US and UK-based clients in the finance, insurance, and IT sectors. Collected and analyzed publicly available data to extract key company information including address, CEO, services offered, and other business details. Ensured data accuracy and completeness to support client business intelligence and decision-making processes. Gained hands-on experience in researching corporate data and presenting it in a structured format as per client requirements.

### **Biometric Based Electronic Voting Machine**

- Designed a fingerprint-based electronic voting system to ensure secure, reliable, and tamper-proof elections. The system verifies voter identity using biometric authentication, prevents duplicate voting, and eliminates the need for manual verification or third-party services. Aimed at improving the transparency, security, and efficiency of the election process.
